

Workshop objectives

- Step back, reflect, share knowledge and review the past team achievements
- Identify your team status on Tuckman's curve & define possible ways to move to the next level
- Perform a team diagnostic based on team performance indicators
- Reflect on the impacts of changes on your team and define ways to best cope with change
- Define priorities, agree with actions for optimum teamwork effectiveness at individual & team levels

Example of workshop map with the sailing analogy

Duration
1 - 2 days

Target audience
6 to 20 participants
English or French speaking

What makes this team workshop successful?

- **Customization** of the workshop content and duration adaptable to your team needs
- **Fun, interactive and memorable sessions** (ex. With the analogy to a regatta sailing team)
- **Lessons learnt** translated into an **actionable plan**
- **A summary report of the workshop**, allowing subsequent review and follow up of the action plans back in the working place.
