

AZck 'perience to Play & Learn !

Try the

A

A unique personal and team learning journey

based on theatre, improvisation & clown techniques adapted to the corporate world

Learning objectives

This workshop is a creative, yet safe and effective platform to experiment how it feels, what it takes and what the benefits are of

- Stepping out of comfort zone, think out of the box and challenge the status quo
- Facing the unknown and finding resources in the present moment
- Daring to share & try innovative ideas in a group
- Allowing self & others to make mistakes & learn from it

Location

A theatre or an open space stimulating creativity, movement and thinking out of the box, such as for example: Flux Laboratory

www.fluxlaboratory.com

Profile of participants

12-20 participants. English or French speaking. No preliminary theatre experience is required

Timing

1-2 days **stand alone** or **integrated** with other programs:

- Leadership development programs
- Change management programs
- Management development programs
- Team building and Team learning activities

What makes this learning experience successful?

- Ideal conditions to **learn about self and others in action**.
- Theatre based activities developed with professional actors and adapted to the corporate world.
- A **safe learning environment**, allowing everyone to participate & **learn at own pace**.
- **Outstanding location, facilities and catering** at the Flux Laboratory in Geneva.
